Duta Alif Gunawan

dutaalif.20091@mhs.unesa.ac.id | 0895339333737 | Surabaya,Indonesia

Problem solver and strong communicator eager to prove my value and skills. Motivated to advance and expand my skill set through targeted mentorship and challenging projects.

EXPERIENCES

Software Developer, Kemenko PMK August 2025 – December 2025

- Developed an integrated asset management system to digitalize asset inventory, monitoring, and management processes, improving operational efficiency and data accuracy.
- Built an Artificial Intelligence–based application for the financial sector to automate verification, data analysis, and intelligent financial reporting processes, contributing to an innovation project that achieved second place during the institutional innovation program.

Skills: Laravel, Tailwind, Bootstrap, jQuery, MySQL, PHP, Docker, Supabase, Typescript

Software Developer, Maxart August 2024 – August 2025

- Performed regular maintenance and enhancement of Japanese web-based applications, including Columbia Cantata and FHRMS, ensuring optimal performance and user experience, while also participating in the design, development, and implementation of the Maxart Audit application.
- Contributed to feature development on tcpc.co.jp and performed database debugging on AWS servers, improving system reliability and performance.
- **Skills**: Laravel, Tailwind, Bootstrap, Ajax, jQuery, MySQL, PHP, Docker, PostgreSQL,AWS

Intern Web Developer, PT Sahabat Jepang Indonesia August 2023 – Des 2023

- Creating a website with an admin dashboard feature to manage question packages, practice questions, and create practice question displays for students at LPK Sahabat Jepang Indonesia. On the user page, there are time features, and pass or fail features.
- **Skills**: Laravel, Tailwind, Bootstrap, Ajax, jQuery, MySQL

Freelance Developer January 2022 – Now

- Developed a performance monitoring website for the Faculty of Vocational Studies, designed to evaluate and track the effectiveness of department heads. The system includes three user roles — Super Admin, Leader (Dekan), and Department Head — each with specific access privileges and functionalities to support administrative transparency and performance assessment.
- Designed and developed a folder and file management website to organize and facilitate access to PhD dissertation materials for the Head of the Electrical Engineering Department, ensuring efficient document storage, retrieval, and overall system usability.
- Creating a practice question website for UTBK called KITAPTN. This website features an admin dashboard to manage exam question packages, exam questions, question categories, practice question categories, practice questions, and includes user management, review, university, and program management features. Users can work on practice questions and take exams. The exams have a passing grade (KKM) based on the university and program selected by the user. Additionally, the website includes a question randomization method using the Fisher-Yates shuffle.
- Developed a library management application for elementary schools, integrating QR code scanning technology to streamline the process of book borrowing and returning, thereby improving efficiency and user experience for students and staff.
- Designed and developed a static display website named *Animal Care*, aimed at presenting information in a clear and visually appealing manner, focusing on responsiveness, user-friendly navigation, and effective content organization.
- Successfully developed a tuition payment application for a kindergarten, streamlining administrative processes with features such as automated record-keeping, transaction history, and payment reports accessible through a Laravel-based dashboard.
- Authored a comprehensive book titled "Basic Website Programming, Creating Web-Based Games Using JavaScript and PHP, User Interface Design, User Experience, and Virtual Reality," covering fundamental concepts of web development, interactive game creation, design principles for UI/UX, and an introduction to virtual reality technologies.
- **Skills**: Laravel, Tailwind, Bootstrap, Ajax, jQuery, Javascript, PHP, MySQL, UI, UX

Assistant Mentor, Ruang Guru Mar 2023 – Jun 2023

- Assisted students in understanding key web development concepts, including basic JavaScript, Object-

Oriented Programming (OOP) in JavaScript, HTML, CSS, JavaScript DOM manipulation, as well as both basic and advanced topics in React.js. Additionally, responsible for monitoring student progress and reporting learning difficulties to assigned mentors to ensure appropriate guidance and support.

- **Skills**: Javascript, HTML, CSS, React JS, Chakra UI

EDUCATIONS

Frontend Engineer Ruang Guru, Kampus Merdeka Mar 2023 – Jun 2023

- Learn: Javascript, HTML, CSS, React JS, Chakra UI.

Dicoding X Indosat Student from beginner to expert (frontend) 2021 - 2022

- Learn: HTML, CSS, javascript, module bundler, web optimization, PWA

Bachelor of Informatics Engineering, Universitas Negeri Surabaya 2020 - 2024

- IPK: 3.77

ORGANIZATIONS

Deputy Head of Extracurricular Robotics at Wahid Hasyim High School 2 Taman 2018 - 2019

SKILLS

Javascript, PHP, Golang, Laravel, React JS, Express, CSS, Chakra UI, Tailwind, Bootstrap, PWA, Wordpress, Flutter, Mysql, Mongodb, Ajax, jQuery, Docker, PostgreSQL, UI, UX.
